SOUTHERN NEVADA VETERANS' MEMORIAL CEMETERY FUNERAL/BURIAL SERVICES POLICIES AND PROCEDURES

- 1. FBES: No fee is charged for a veteran; there is a fee for a spouse and/or an eligible dependent of \$450.00, paid the day of services or interment. No additional fees will be incurred at the cemetery for a burial. Burial includes plot, concrete liner for casket burial, plastic covering for in ground cremation burial, flat headstone, opening and closing, and perpetual care.
- 2. PBRMITS: All casket and cremains must be delivered with the proper Burial-Transit Permit.
- 3. BURIAL/SERVICES: Burial and service arrangements are coordinated by the funeral home, family and/or representative of the deceased. The funeral home schedules an available date and time for burial with cemetery staff and advises cemetery staff on the type of ceremony services. In cases where the family or representative have the cremains, they may call the cemetery for burial/service guidance.
- 4. Memorial services are performed in the non-denominational chapel building. See information below for gravesite policy and procedures.
- 5. CLOSED CASKETS: All caskets are to remain closed at all times.
- 6. TIME ALLOTMENT: The time allotted for services is a total of 40 minutes. Pive minutes for set up, 30 minutes for service including honors, 5 minutes for departure. This will allow time for the chapel to be prepared for the next scheduled service. For respect and dignity of the following service it is imperative that everyone adhere to the scheduled time allotted.
- 7. SPECIAL REQUESTS: For any special requests the families must speak to the office staff. Requests will be reviewed on an individual basis in order to achieve an appropriate solution. No one is allowed at the casket burial gravesite without prior approval, and if approved they must be accompanied by a cemetery staff member for safety reasons.
- 8. VIEWING A CASKET BURIAL: Casket burial viewing is allowed from designated safe viewing area.
- 9. VIEWING A CREMATION BURIAL: The family may follow the cemetery staff member to the cremation burial site after the service is completed in the chapel.

10. ORDER OF EVENTS FOR A CASKET BURIAL/SERVICE

- a. The funeral home director delivers the casket to the designated area in the rear of the chapel building.
- b. The funeral director brings all the required paper work and immediate family member, if available, to the administrative building office to report in and complete all paper work. If family member is not available at that time he/she must bring immediate family member into the administrative building after the service to finalize all required paper work.
- c. The designated party, funeral director, pallbearers, honor guard, and/or cemetery staff, will put casket onto the portable casket holder/carrier and bring casket into the chapel building side entrance, which is designated for casket services.
- d. Upon completion of the service the funeral director or authorized person will notify cemetery staff. The casket will be brought out of the chapel by the designated party and put onto the lowering device trailer or transporting equipment the cemetery utilizes and has available for use at that time.

e. The family/representative should advise the cemetery staff as to their wishes for the disposition of the flowers present at the service.

f. The cemetery staff will hook up towing vehicle to lowering device trailer and/or use available equipment

to transport casket to the burial plot.

g. The burial plot and area will consist of a concrete vault in the grave plot, a concrete lid lying on the side of the plot, when needed a middle divider next to the lid, a pile of dirt, shoring around the diameter of the grave plot, cones, and rope to prevent viewers from being injured, a backhoe and/or any other equipment essential to accomplish burial.

h. The casket is placed over the grave and lowered down into the concrete vault.

After the casket is lowered the cemetery crew will wait a brief period until all guests attending service have departed before utilizing mechanical devices and/or any other equipment deemed necessary to put concrete lid on the vault and then replace the dirt to properly fill grave.

11. ORDER OF EVENTS FOR CREMATION BURIAL/SERVICE

a. The funeral director or the family may bring cremains and all the required paper work to the cemetery. In some instances cremains with prior arrangements and all completed paperwork may be mailed to the

b. The minimum receptacle accepted for a cremation burial is a hard plastic urn. Any of the other decorative urtis are acceptable if they do not exceed the maximum size of 10" x 11". The companion oremation vaults are not acceptable, only individual urns. All cremains must be labeled and accompanied by the · Burial-Transit permit.

c. The funeral director or family member/representative will need to check in with administrative staff to

review all required paper work.

d. Memorial services for cremated remains are to take place in the chapel building in the designated room.

e. At the completion of the chapel service the funeral director or the authorized person will notify cemetery staff. The family/representative should advise the cemetery staff what their wishes are for the flowers and who will carry the cremated remains to the gravesite. All may follow the cemetery staff to gravesite for the viewing of the burial.

f. Immediately upon arrival at gravesite the cemetery staff will wrap urn with plastic, then place the urn in the grave. The cemetery staff member will fill the opening with dirt and place a temporary marker over the grave, then depart. If the family/representative would like to stay afterward to say a prayer they may do so only after the cemetery staff has completed the burial and departed from the area.
